Silence Bed is a piece of furniture, which was created for comfort sleeping. It is perfect for smaller home places, where you need to create special space for unexpected conditions. You can choose between 2 variations: single and a double bed. The whole frame is made from birch plywood and is possible to add movable boxes under the bed (find the product below). You can choose the one special colour with spectacular wooden texture. The mattresses are not included in price and delivery.

SILENCE BED, 2019, hand — stained plywood

Plody studio is focused on bespoke furniture and interiors.
